This diagram shows the exploded view of a robotic arm assembly. The components are numbered as follows:

- 1:** A small cylindrical component, likely a pin or connector, located at the top right.
- 2:** A larger cylindrical component, possibly a motor or actuator, positioned below component 1.
- 3:** A series of three circular discs or washers stacked together, located below component 2.
- 4:** A bracket or housing that encloses components 2 and 3.
- 4.1:** A small circular component, possibly a bearing or seal, located below the bracket 4.
- 4.2:** Another small circular component, similar to 4.1, located below 4.1.
- 5:** A complex assembly of several circular and ring-like parts, including a central hub and outer rings.
- 5.1:** A specific part of the assembly 5, likely a ring or flange.
- 6:** A bracket or housing that encloses the lower part of the assembly, including components 5 and 5.1.

The diagram illustrates the spatial relationship and assembly sequence of these parts, showing how they fit together to form the robotic arm structure.
